MEMORANDUM FOR: Deputy Director of Central Intelligence

SUBJECT: Suggestions to the Chair for the 15 May
SEG Meeting

1. Focus the meeting on deciding specific questions, rather than on any particular paper. With this in mind, I list what I believe to be the essential questions that need to be resolved and their order of priority.

a. Shall a single staff perform functions in support of both the DCI and CIA, or shall there be two staffs, one under DDI to address CIA problems and another staff under Bross to address DCI Community problems?

Note: If the answer to 1a is two staffs, then Bross should be asked to set out the numbers and types of individuals he needs to cover his responsibilities, and DDI should be asked to do likewise for the staff to discharge CIA's staff responsibilities.

b. Is it agreed that in determining the CIA staff requirements that the DDI special staff shall be divested of not only the CIA requirements functions, but also other functions which have over the years been assigned piecemeal to CGS?

c. Is it agreed that there shall be a centralized CIA requirements mechanism? If so, the details of its functions and manning should be worked out by DDI in coordination with the other directorates.

Special Assistant to the DCI
